Kritik.io

In this course, we will be using Kritik.io, a peer-to-peer learning platform. It is an engaging and gamified web technology that helps you develop your higher-order-thinking skills according to [Bloom's taxonomy of cognitive thinking](). It includes Creation and Evaluation skills.

When you participate in Kritik activities, you will receive 3 scores: "Creation" score, "Evaluation" score and "Participation" score. Together, these will add up to 75% of your final course mark. To understand what these scores are and how they are calculated, please read the section "how scoring works" on Kritik's help center [here](). After the first assignment is fully completed, you will be asked to do a short calibration exercise.

An email invitation will be sent to your school email account that contains the link to register an account on Kritik online and enrol in the course. **You MUST use your university email to sign up in order to access the course**. If you did not receive any email yet, please contact Kritik using the live chat on kritik.io.

How to get help: If you have any questions about Kritik, please use **the live chat** in the app. A human agent will respond promptly in a few minutes during business hours. You can also visit Kritik Help Center at https://www.kritik.io/student-user-guidance-page, which outlines an overview to get you up and running on the system.
