Course Home Page

- The course home page is NOT on Avenue to Learn. It is accessible from the link at the following web site:
<http://www.math.mcmaster.ca/childsa/childs.html>

Course Description

- Course Title:** Math 1ZB3 - Engineering Mathematics II-A
- Class Times and Locations:** See the [registrar's](#) web site (Select MATH-MATHEMATICS as the subject, and then press "Find". Then press "Search Results Timetable")

Section 1 (C01) Instructor Information

- Name:** [Ben Mares](#)
- email:** bmares@math.mcmaster.ca
- Office Location:** HH/423
- Office Hours:** Monday 4:30pm-5:30pm, Tuesday 3:30pm-4:30pm, + Jan. 13, 5:00pm-6:00pm.

Section 2 (C02) Instructor Information

- Name:** [Bartosz Protas](#)
- email:** bprotas@mcmaster.ca
- Office Location:** HH/326
- Office Hours:** Wednesday and Thursday 12:30pm-1:30pm

Section 3 (C03) Instructor Information

- Name:** [Aaron Childs](#)
- email:** childsa@mcmaster.ca
- Office Location:** HH/213
- Office Hours:** Click [here](#)

Textbook

- Required:**
 - *Calculus, Early Transcendentals, 6th Edition*, James Stewart, Brooks/Cole
- Optional:**
 - Student Solutions Manual for Single Variable Calculus, Early Transcendentals
- A copy of the textbook and solutions manual are available on reserve in Thode Library.
- Note:** The previous (5th) edition of the textbook cannot be used unless you have access to the exercises in

the 6th Edition, the answers and solutions manual for the 6th Edition (optional), and you know and understand the correspondence of sections between the 6th and 5th Edition (described on page xii of the 6th Edition)

Material Covered

- All Sections covered in the [Suggested Problems](#)
- **Major Topics:** Integration and applications, differential equations, parametric curves.

Test Information

- Calculators are NOT allowed on any of the tests or exams
- Some sample tests are available on the [Suggested Problems](#) pages
- **Tentative Dates** (these dates are subject to change):
 - Test #1:** Evening of Monday January 31
 - Test #2 (Midterm Exam):** Evening of Thursday March 3
 - Test #3:** Evening of Tuesday March 29
- Check the [Announcements](#) part of the course web site for room and time information, and for instructions on what to do if you have a conflict with the test time

Course Evaluation

- **Your final mark will be calculated as follows:**

Tests 1 and 3 - 15% each

Test 2 (Midterm Exam) - 20%

Final Exam - 50%

Notes:

- At the end of the course the grades may be adjusted, but this can only increase your grade and will be done uniformly. We will use the grade equivalence chart published in the Undergraduate Calendar to convert between percentages and letter grades.
- The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check their McMaster email and course websites weekly during the term and to note any changes.

Missed Work Policy

- **For absences from classes lasting up to 5 days:** Use the McMaster student absence form ([MSAF](#)) on-line, self-reporting tool
 - If your MSAF form was received then the word "note" will appear in place of your mark on the [marks](#) page. This will show up within two weeks after you filled out the MSAF form. If you don't see the word "note" in place of your mark for the missed work two weeks after filling out the MSAF form, then send an email to [Dr. Childs](#) telling him the date that you filled out the MSAF form. If you do see the word "note" in place of your mark, then no follow-up is required.
 - The percentage for a missed test will be added to your final exam.
- **For absences from classes lasting more than five days:** Students who are absent more than five days cannot use the on-line, self-reporting tool to request relief. They MUST report to their Faculty Office to discuss their situation and may be required to provide appropriate supporting documentation. If warranted, students will be approved to use a discretionary version of the MSAF on-line, self-reporting tool.

Academic Dishonesty Academic dishonesty consists of misrepresentation by deception or by other fraudulent means and can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. It is your responsibility to understand what constitutes academic dishonesty. For information on the various kinds of academic dishonesty please refer to the Academic Integrity Policy, specifically Appendix 3, located at <http://www.mcmaster.ca/policy/Students-AcademicStudies/AcademicIntegrity.pdf> The following illustrates only three forms of academic dishonesty:

1. Plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
 2. Improper collaboration in group work.
 3. Copying or using unauthorized aids in tests and examinations.
