# 1ZA3 (SECTION C01)
- ENGINEERING MATHEMATICS I
A.K.A. — CALCULUS I

Make

└ Measurements that are seemingly impossible to make, by taking better & better & better approximations

... approx. area of circle with polygons

velocity

time: t_0 ←⎯⎯⎯ t_1

measure the velocity at an instant by taking smaller & smaller time intervals.

Next time:

Trigonometry

Review of trig, trig functions trig identities.
